The journal welcomes for publication short notes, and full papers, reporting new results of research, in all areas of physics, including optics, electronics, astrophysics, spectroscopy, engineering, chemical and medicinal physics, biophysics and biochemistry, crystallography and the spectroscopy of metal complexes. © Anita Publications, All rights reserved.

1 Introduction ←Enter Space ←0.5 Paragraph Space

Manuscripts (in triplicate, one original and two photocopies) for consideration should be in English and type written on only one side of good quality paper, in double space, with ample margin in all four sides. Good attention should be given to spelling and grammar.

2 Experimental ←All headings in 10 pt bold All text in 10 pt

All contributions submitted will be refereed. The authors may suggest the referees themselves, but editor may choose other referees also who remain anonymous. The Board of editors reserve the right to reject a manuscript and to edit a contribution whenever necessary. Normally the contributions are published within three months of the date of receipt. However, the papers submitted in the camera ready form will be given preference in publication. Manuscripts should be presented in as concise form as possible. Page should be numbered consecutively and arranged in the following order : Title, author(s) name(s) with institutional affiliations(s), and abstract; introduction, experimental details/theory/methods, results, discussion, conclusions(s), acknowledgements (if any) and references.

3 Results and Discussion

In the text, references should be numbered consecutively in the order of their first occurrence and should be indicated by Arabic numerals [1]. Illustrations and diagrams must fit into a maximum of 14.5 cm width and be pasted at the appropriate place in the text. After the manuscript has been accepted for publication, the authors will be requested to pay Rs 150/(US \$ 7.00) per printed page in order to meet partially the cost of production. This will entitle the authors to receive 25 reprints of the paper free of cost. The authors after being informed for acceptance of their manuscripts may send the final accepted version of their papers in camera ready form (in duplicate alongwith C D in PM 7.0 or M S Word 7.0 Office 2003) to the editor. The manuscript should be laser printed. All graphics and text should be within an area of 21 cm height and 15.25 cm width. For Table setting pl see below :
